General Hiking Info & Suggested Guidelines– With the freedom that hiking, horse riding & mountain biking offer comes the responsibility to care for the environment and to respect the rights of others. The complex ecological interrelationship in which our wildlands have existed for thousands of years can easily be upset or even destroyed by the careless recreationist. If our wildlands are to exist for future generations to enjoy please adopt the backcountry ethic of *“take only photographs & leave only footprints.”*

Before the Trip & While Recreating: The Seven Principles of Leave No Trace Plan Ahead & Prepare * Travel & Camp on Durable Surfaces * Dispose of Waste Properly * Leave What you Find * Minimize Campfire Impacts * Respect Wildlife * Be Considerate of Other Visitors*
